

SECURITY GATE

GC1100CR High Impact Hinged Gate

The Avon GC1100CR High Impact Hinged Gate provides a high level of security against unauthorised vehicle access.

Designed to withstand substantial direct impact forces the gate is used to protect sites from extreme aggressive attacks. Manufactured by engineers with a wealth of experience in the fields of Hostile Vehicle Mitigation (HVM) Solutions, the GC1100CR is a highly dependable security product.

The manually operated hinged gate incorporates the crash tested vehicle restraint system (1852KJ resistance).

Shallow foundation depths are from under 470mm subject to gate design.

With an experienced system design capability along with a worldwide installation, service and maintenance capability, we are able to provide a swift and efficient solution to all your high security requirements.

PRODUCT SPECIFICATION

FEATURES

- » Physically impact tested to PAS 68 criteria
- » Manufactured from heavy gauge materials
- » Shallow foundation less than 470mm overall depth
- » Manual Operation

BENEFITS

- » Confidence in security performance
- » Strong and durable
- » Overcomes site depth restrictions
- » No power supply required

Physical Dimensions:	To suit site requirements
Operation:	Manual
Impact Absorption	1852KJ
Full PAS 68 Classification:	V/7500/80/90:5.7/0
Tested Model:	1.0m H x 3.8m opening
